The sample template is not offered for sale

Template Description

The sample template is not offered for sale

VirtueMart is an Open Source E-Commerce solution to be used together with a Content Management System (CMS) called Joomla!. Joomla! and VirtueMart are written in PHP and can be used in typical PHP/MySQL environments. Vast variety of available modules, plugin and components gives you the opportunity to extend the functionality of your online store.

VirtueMart templates allow you to change the design and layout of your store fast and easily.
